Harpeth Wings

Chapter H

Franklin, Tennessee

We eat at 9:00 am, meet at 10:00 am at Shoney's Restaurant, Hwy 96 just west of I-65 in Franklin. 4th Saturday of each month. Come join us.

<http://www.chapterh.com>

Volume 10 Number 3 March 2017

Gold Wing Road Riders Association (GWRRA) Friends for *Fun, Safety and Knowledge*

Director's Corner

Hello Everyone,

This month has been pretty good month. We visited a couple of chapters and had a good chapter meeting ourselves.

On Sat March 4th, David & Karen Hill along with Thu and I took a CPR refresher course. Gary and Patti Hamilton were the instructors and did their usual great job conducting the class.

On April 8th, Chapter E will conduct a Road Captain Seminar. The location will be a Sloan's Motorcycle, 2233 NW Broad St. It is either to start at 12 or 12:30 pm. You must wear the proper riding gear. You can attend the Seminar without a working CB, but must have a working CB for the road course. If interested, contact Ed Grazier: Phone 615-459-4499, or Email: [edgrazier @att.net](mailto:edgrazier@att.net)). The seminar &

Will & Thu Horsley
Chapter H Directors
willchapterh@gmail.com
615-483-2335

field ride exercise should last around 3 hours.

Next month is Spring Fling, April 20-22. We will not have a Chapter meeting in April because most of us will be at Spring Fling.

Don't forget our meeting is on the 25th this month, at Shoney's, 1306 TN 96, Franklin, TN.

Be Safe,

MARCH DIRECTORS MESSAGE

Hello everyone it's Spring Fling time, well almost anyway. You need to get your registrations sent in soon. We have a lot of things planned for your enjoyment. Has your chapter signed up for the talent show? Your chapter could win money, every chapter could use a little more money. How about the sock hop on Thursday night? Dress the 50's theme and get in the running for best dress theme contest, individual and chapter. Come and join us in the chapter challenge. You know your chapter is the best so prove it by joining the challenge. Come on to Spring Fling and join us for the vendors. We plan to have several of those, indoor and outdoor. Everything from chrome to jewelry, things for men and women. You don't want to miss out on the bike show and the light show. Get in the bike show and show off that beautiful bike then get in the light show and show off all those colors. Then there's the Hatfield's and McCoy dinner and show after closing on Saturday night. You can't beat the price of \$35.00 a person. As a matter of fact, you can't beat this price for a dinner and a show anywhere in Pigeon Forge. This place can hold up to 700 people and if we get 500 people it will be a GWRRA only show. I spoke with them today and they are willing to work with us so we can set together as a chapter, we are figuring out we can do this, but they said they would work with us to make this happen. But we need 500 people to make it a GWRRA event only. So we need you to get those registrations mailed in.

There will be several awards presented at Spring Fling; The Chapter Director of the Year, the Audrey Batson Award, the Zearl & Jane Black Award, the Chapter of the Year Award (Gold, Silver and Bronze), the Educator of the Year Award. We will also have chapter Banner Award, largest Chapter pre-registered, Best dressed couple, Best dressed chapter, and Best dressed theme.

Congratulations to Jeff & Shari Douglas on becoming our new Chapter Directors for Chapter N, Jackson, also Shane McAmis and Amanda Cronan on stepping up and taking the Chapter Directors position at Chapter O, Cleveland. Thank you all for stepping up and taking on the chapter Directors position. Be sure and congratulate them when you see them, better still go to their next gathering and give them support.

The District would like to welcome Michael Browder to our staff as the District Web master. Michael is a member of Chapter C in Kingsport. We would like to thank Jim Lester for all that he has done while serving as District Web Master for the past three years with us and the time before Patti and I taking over as Directors. Jim has done a great job. Thank you Jim from all of the district staff and members.

Patti and I have been visiting around the state and we are very happy to see visitation among the chapters doing well. We are also happy to see the chapters chasing the "wood". Keep it up. Have fun and ride safe.

Gary & Patti

From our Middle/West TN Assistant District Directors, Vickie and Troy Hurt

What a Mild Winter

Can you believe had mild the winter has been here in Tennessee, a lot of people have been doing a lot of riding. As I set here writing our article I was thinking of my first Spring Fling the year was 1990. A lot has happen since then I married Vickie in 2000 and she loves the people in GWRRA. We have made so many friends over the years and we know that we will make more as time goes on. Yes we have lost some very dear members also someone once said GWRRA is like family and this is so true.

Spring Fling 2017 will here before you know it and everyone on the District Staff is hoping to see everyone there. There will be so much going there is FUN for everyone, with costume contest, sock hop, bike show. light show, training classes, guided rides and self guided rides and last but not least is the Hat-Fields and McCoy's dinner show Saturday night after our closing ceremony. This is a real good show and we hope to fill up the theater with all GWRRA Members! They are doing a special show just for us and they are going to have a Gold Wing in the show. It is going to be great. So make plans on going.

Visitation is going very strong here in Middle Tennessee Members are getting out and chasing plaques or just visiting with each other. Lets keep up all the visiting it really helps the Chapters when they have a good crowd not to mention all the Fun you will have.

As the new year gets going several Chapters have put together some classes for everyone, below are dates for up coming classes.

1. March 12th Chapter A will be holding a ARC class in Gallatin TN class starts at 8AM. Please contact Steve Thomas or Troy Hurt. Cost is 25.00 per bike.
2. March 25th Chapter Z in Columbia TN will be holding CPR class, Contact Chuck Madison for details.
3. Chapter E will be holding a Instructor Training class contact Randy Galloway.

Below are some other upcoming events.

1. March 18th Chapter Y will be having a spaghetti lunch after their gathering with proceeds going to St. Jude's Children's Hospital. Cost is \$5.00 per person this will be held at Murfreesboro Jaycees Colonel's Club, 403 Hickerson Dr. Murfreesboro TN. They will have the Region N Plaque up for grabs as well. This should be a lot of FUN!
2. May 13 Vickie and myself along with Andrew & Debbie Smith from Chapter L are helping with a motorcycle ride to help special needs. These are young adults and they are going to build a place for them to do several things like play sports, have classes. It will be held at the Cumberland University Nokes-Lasater Field in Lebanon. The cost is \$20.00 per bike all bikes are welcomed. This ride will start at 9:45am so everyone needs to be there at 9:15am it will be police Escorted. We hope to see you there.
3. Middle Tennessee Ride for Kids will take place on May 20th at Barfield Crescent Park, 697 Veterans Pkwy Murfreesboro TN 37128. Registration 12 to 1;30pm kickstands up at 2pm. Rider must be 18 years of age.

Here is where the Plaques are so visit and bring them to your Chapter!

1. Region N Plaque is at Chapter Y in Murfreesboro TN March 18th.

2. Middle/West Plaque is at Chapter Z in Columbia TN March 11th.
3. The Couple of the Year Plaque is at Chapter N in Jackson TN March 4th.

Take Care & Ride Safe in 2017

Troy and Vickie Hurt

From our District Educators, Alvin and Josie Nelson

What a nice day today! Alvin and I tool a ride across Foothills Parkway, back into Maryville, and had supper at Gondolier's restaurant. I started out with a vented jacket, and ended up with an unvented one-the weather was perfect. Alvin tested out the Hannigan trike kit he put on Roger Crowe's two wheeler. I am going to have to watch out for Alvin as he will steal my new trike. The testing of Roger's trike went well and now he is ready to ride to Texas. Our riding season is officially open. The only thing missing today was friends to ride with.

We are also busy preparing for Spring Fling in April. For rider ED, there is going to be a bike show, a light show and Masters breakfast. For those of you that have not signed up for the Masters breakfast there are only a certain amount of seats so please register early with your spring fling registration.

The bike show this year will be judged by popular vote. There will be several categories of bikes and trikes. A system will be set up so that everyone has an equal chance to win. There will be (5) five categories to place the motorcycles in so stop by the Rider Ed table to register for the bike show. Details will be included in your packets as to how the voting will be done.

Now on a more fun note, has anyone started the shiny side up practices? The first set of practices are simple. Chapter educators, get your people going! For those that might like to compete on a district level, region level, or at wing ding, you need to start now. There is a web site for the chapter educators to use to get started. Remember educators, members may practice on their own, but it is more fun to do it as a group. Take your group to a parking lot for about an hour at least one time a month, choose two or three exercises at a time, and have fun. If you still need help knowing what to do, please email Josie at nannajo7@bellsouth.net for details.

Safety lesson for this month;

Remember the riding season is open! A rider might be a little rusty if one has winterized their bike and not ridden very much. Take time to practice the basic skills such as braking, cornering and swerving. Also remember cars are not used to seeing you on the road. Also on pretty days like today, some older people only take their cars out on pretty days, usually on Sundays, so their driving skills are not as keen they once were. Watch especially at intersections, the most dangerous areas for cars, and motorcycles. Prepare for the changes in weather that occurs within the hours you are riding. Find friends to ride with, it is more fun!

Last, Rider Ed is working on classes. There is an ARC course in Gallatin Tennessee on March 12. There are still openings. Contact STEVE THOMAS Chapter A, if you would like to attend. 561-315-

8629.

See you on the road!

Alvin and Josie

From our District Trainers, Max and Renee' Thomas

Spring Fling and More

Do you remember the checklist I sent out last month? Have you completed all of it, some of it, any of it? Time is running out. I happen to know that no one has finished all of it, because I still need your nominations for Trainer of the Year. We have some great trainers in Tennessee. Please send in your nomination for your favorite one. You can access the nomination form on the Region N website. Give these people the recognition they deserve for all the hard work they put in to bring you some of the best training in the organization. Submit your nomination today, don't wait, you will forget, I know how you are, these things happen as we get older. Now I know some of you read that and thought "I'm not that old, I don't forget stuff", you're the ones I expect a nomination from by the end of March. Everybody else needs to send theirs in sooner.

We will have some of the new classes presented at Spring Fling this year. Make sure you have looked at the schedule and have made plans to attend at least one of these new classes. I think you will be surprised, excited, enthusiastic and a smarter person for attending. Yes, these new classes are not only fun, but they can even teach "old dogs" new tricks. Now the "young dogs" among you can still learn and need to attend, the "old dogs" need to attend just to see if I'm right. Even the instructors are learning something new preparing for these classes, and you know how old some of them are. I'll make a deal with you, if you don't learn something I will personally refund your cost of admission to the class. Yeah, I know they are free, so what have you got to lose?

Did you have fun at the talent show last year? We need your participation to make it even more fun this year. Please send in your Talent Show Application as soon as possible (I have two applications as of 2/28/17) so we can properly prepare for the event. Remember, the more you are involved, the more fun you will have. We want you to have a fun and memorable Spring Fling by being involved in numerous activities. Get your preparations done and be ready to have fun. See you in Pigeon Forge in April.

Rider Education

David & Karen Hill, Chapter Educators

T-CLOCS

This is a topic with which I'm sure you are all familiar.

- T Tires, wheels, and brakes
- C Controls
- L Lights and Electrical
- O Oils and Fluids
- C Chassis
- S Sidestand

This is what Wes Siler had to say about tire pressure on www.ripeapart.com, dated Nov 11, 2013:

Tire pressure is the most easily adjusted variable on your motorcycle and also one of the most crucial. But the vast majority of us are guilty of neglecting it and, even if we do check it regularly, failing to take full advantage of the benefits adjusting it brings. Here are 5 things you need to know about motorcycle tire pressure.

1. Check Pressures Regularly

Opinions vary on how often, with many manufacturers suggesting once a week and some safety experts stating every day. Just factor in how you're using your motorcycle. Commuting every day in fairly stable weather conditions? Once a week will serve you just fine. In the middle of a big Adventure trip with variable loads on your bike, conditions ranging from highway to single track and hitting a bunch of sharp rocks? Once or, if conditions are particularly severe, even twice a day may be best.

2. Check Them While Cold

The suggested pressures in your owner's manual are for cold tire pressures. That means after your bike's been sitting for 20 minutes or more, don't wait until winter. Heating tires up by riding on them can increase pressures by over 10 percent. The MSF actually recommends waiting three hours from your last ride before attempting to ascertain a correct cold pressure. That sounds like overkill to us, use your judgment.

3. Use Your Own, High Quality Gauge

I've seen the gauges at gas station forecourts read-off by up to 30 psi over my own gauge that I carry with me everywhere. Even a variation of just a few psi can alter your motorcycle's handling and braking abilities, so it's important to use an accurate gauge. They're cheap, so no excuses.

4. The Extremes

What's the worst that can happen if your tires are massively under inflated? Ultimately the tire could come off the rim if there's not enough pressure to force the bead into the wheel. More likely, you'll simply experience sluggish, unstable handling, slow steering and you could damage the tire or wheel, particularly if you're riding off-road. Over inflated? The size of the contact patch is reduced and the ride worsened. Too much pressure can cause your tires to quickly overheat, reducing traction.

5. Going Up And Going Down

Stick to your manufacturer recommended pressures. Even if you're spending all day Sunday on The Snake trying to get that ultimate elbow down shot, dropping pressures will just slow your steering. Modern performance tires are designed to work at stock pressures unless you're on a track.

Tires are not the only thing to check. The T-CLOCS form is a checklist from MSF that lists the items you need to examine.

T-CLOCSSM Inspection Checklist

T-CLOCS ITEM	WHAT TO CHECK	WHAT TO LOOK FOR	CHECK-OFF	
T-TIRES & WHEELS				
Tires	Condition	Tread depth, wear, weathering, evenly seated, bulges, embedded objects.	Front	Rear
	Air Pressure	Check when cold, adjust to load.	Front	Rear
Wheels	Spokes	Bent, broken, missing, tension, check at top of wheel: "ring" = OK — "thud" = loose spoke.	Front	Rear
	Cast	Cracks, dents.	Front	Rear
	Rims	Out of round/true = 5mm. Spin wheel, index against stationary pointer.	Front	Rear
	Bearings	Grab top and bottom of tire and flex: No freeplay (click) between hub and axle, no growl when spinning.	Front	Rear
	Seals	Cracked, cut or torn, excessive grease on outside, reddish-brown around outside.	Front	Rear
Brakes	Function	Each brake alone keeps bike from rolling.	Front	Rear
	Condition	Check pads and discs for wear.	Front	Rear
C-CONTROLS				
Handlebars	Condition	Bars are straight, turn freely, handgrips and bar ends are secure.		
Levers and Pedal	Condition	Broken, bent, cracked, mounts tight, ball ends on handlebar levers, proper adjustment.		
	Pivots	Lubricated.		
Cables	Condition	Fraying, kinks, lubrication: ends and interior.		
	Routing	No interference or pulling at steering head, suspension, no sharp angles, wire supports in place.		
Hoses	Condition	Cuts, cracks, leaks, bulges, chafing, deterioration.		
	Routing	No interference or pulling at steering head, suspension, no sharp angles, hose supports in place.		
Throttle	Operation	Moves freely, snaps closed, no revving when handlebars are turned.		
L-LIGHTS & ELECTRICS				
Battery	Condition	Terminals; clean and tight, electrolyte level, held down securely.		
	Vent Tube	Not kinked, routed properly, not plugged.		
Headlamp	Condition	Cracks, reflector, mounting and adjustment system.		
	Aim	Height and right/left.		
Tail lamp/brake lamp	Condition	Cracks, clean and tight.		
	Operation	Activates upon front brake/rear brake application.		
Turn signals	Operation	Flashes correctly.	Front left Rear left	Front right Rear right
Switches	Operation	All switches function correctly: engine cut-off, hi/low beam, turn signal.		
Mirrors	Condition	Cracks, clean, tight mounts and swivel joints.		
	Aim	Adjust when seated on bike.		
Lenses & Reflectors	Condition	Cracked, broken, securely mounted, excessive condensation.		
Wiring	Condition	Fraying, chafing, insulation.		
	Routing	Pinched, no interference or pulling at steering head or suspension, wire looms and ties in place, connectors tight, clean.		
O-OIL & OTHER FLUIDS				
Levels	Engine Oil	Check warm on center stand on level ground, dipstick, sight glass.		
	Gear Oil, Shaft Drive	Transmission, rear drive, shaft.		
	Hydraulic Fluid	Brakes, clutch, reservoir or sight glass.		
	Coolant	Reservoir and/or coolant recovery tank — check only when cool.		
	Fuel	Tank or gauge.		
Leaks	Engine Oil	Gaskets, housings, seals.		
	Gear Oil, Shaft Drive	Gaskets, seals, breathers.		
	Hydraulic Fluid	Hoses, master cylinders, calipers.		
	Coolant	Radiator, hoses, tanks, fittings, pipes.		
	Fuel	Lines, fuel valve, carbs.		
C-CHASSIS				
Frame	Condition	Cracks at gussets, accessory mounts, look for paint lifting.		
	Steering-Head Bearings	No detent or tight spots through full travel, raise front wheel, check for play by pulling/pushing forks.		
	Swingarm Bushings	Raise rear wheel, check for play by pushing/pulling swingarm.		
Suspension	Front Forks	Smooth travel, equal air pressure/damping, anti-dive settings.	Left	Right
	Rear Shock(s)	Smooth travel, equal pre-load/air pressure/damping settings, linkage moves freely and is lubricated.	Left	Right
Chain or Belt	Tension	Check at tightest point.		
	Lubrication	Side plates when hot. Note: do not lubricate belts.		
	Sprockets	Teeth not hooked, securely mounted		
Fasteners	Threaded	Tight, missing bolts, nuts.		
	Clips & Cotter Pins	Broken, missing.		
S-STANDS				
Center stand	Condition	Cracks, bent.		
	Retention	Springs in place, tension to hold position.		
Side stand	Condition	Cracks, bent (safety cut-out switch or pad equipped).		
	Retention	Springs in place, tension to hold position.		

Chapter Couple of the Year

David & Karen Hill

Hello Wingers,

In the six weeks that we have been District Couple of the Year David and I have visited eight of nineteen chapters (plus our own chapter meeting) for a total of 825 miles covered. Not a bad start, but our goal is to visit everyone at least once this year. We've had lots of fun and eaten some good food while visiting chapters and chasing plaques. And it's been good to see how many other wingers are out visiting as well. Now we'll start adding rallies to the travel schedule. First up is Florida, then our own Spring Fling. If you haven't registered for Spring Fling yet, please consider doing so. First of all, it's fun spending time with other wingers. And secondly, Pigeon Forge and Gatlinburg need the tourists to help get back on their feet after that terrible fire last November. Hope we'll see you there!

As many of you know, my son (Mike Morgan) races a big rig. Well this year there will be two Bandit Series Races in Tennessee. The first will be on Saturday, July 1st at Highland Rim Speedway in Greenbriar – that's three miles off I-65 north of Nashville at Exit 104. Since many wingers are connected to the trucking industry and most of us enjoy watching others race (ahem), we are planning a Middle Tennessee ride to the race. So reserve the date!

The Highland Rim track is only a quarter mile oval (the smallest on which the trucks have raced) with high banks. Running 10 to 20 trucks on the track there will mean a lot of "rubbin and bumpin" especially when the faster trucks lap the slow ones. Oh yeah, they're competing for a \$50,000 purse! After watching a couple of these races last year I can tell you they are exciting in a way that NASCAR isn't. Check out some of the videos at www.PowershiftPerformance.com or www.banditseries.com to see for yourself. The second Tennessee race will be September 23rd at either Highland Rim or Fairgrounds Speedway Nashville. I'll post more details soon.

My personal good news is that I took my first ride post surgery last Sunday. The day was warm, the trike was asking to be ridden, and I couldn't stand it. We spent most of the afternoon on a back road ride to Fly. Not sure it's even on the map. It felt so good to be back riding!
Hoping to see you at a meeting or on a ride,

Karen and David Hill
2017 Chapter and District Couple of the Year

SPRING FLING 2017
The Fabulous 50's

Pigeon Forge
April 20 – 23, 2017

Plan now to attend – you will not regret it!
Registration information is available on the District website.

Visit the TN GWRRRA website at:
